

Inkjet Transfer Paper - For Lights

Our Premium Inkjet Transjet 11 Paper is a fast-drying product that can be transferred with a home iron or an industrial heat press, with a complete, easy release. The result is a vibrant product with an incredible soft-hand feel, and excellent stretch, breathability, and washability.

HEAT PRESS APPLICATION

1. Print Image in Mirror, Allow to dry for 15 minutes to 1 hour, cut image leaving a border of 3mm.
2. Press the image at 350°F - 360°F for 12 - 16 seconds with the heat press, using MEDIUM pressure.
3. Peel Transfer HOT starting at the corner. USE CAUTION, PAPER WILL BE HOT.

IRON APPLICATION

1. Print Image in Mirror, Allow to dry for 15 minutes to 1 hour, cut image leaving a border of 3mm.
2. Set the iron to the hottest temperature and do not add water to the iron.
3. Place the image face down onto the fabric. Iron the back of the image for a few seconds and let cool for about 10 seconds. Iron the perimeter of the image first, starting at the lower left corner and moving upward along the side to the top left corner. Next, iron the top center of the image moving slowly to the bottom center of the image. Re-iron the image VERY SLOWLY using medium to high pressure. Continue ironing until you have completely traced the sides of the image. This entire process should take about 60-70 seconds for an 8"x 10" (20 x 25cm) image surface. Follow-up by ironing the whole image quickly, heating all of the transfer paper again for approximately 10-13 seconds.
4. Quickly peel the transfer starting at the corner immediately after the ironing process. USE CAUTION, PAPER WILL BE HOT.

RECOMMENDED FABRICS

Recommended for white or light coloured fabrics

- Cotton
- Polyester
- Cotton/Poly Blends
- Lyrca
- Nylon

TIP: If you are using 100% cotton, it is best to pre-heat T-shirt until all the steam is out.

Due to the combination of fabrics, weaves, coatings and dyes used in the textile industry, we recommend testing the application before production.

APPLICATION

 12-16 seconds

 350°-360° F

 Medium

 Hot

STORAGE

Store your Inkjet Transfer Papers in the sealed plastic bag until use. To prevent moisture from forming. Close bag after each use.

CARE

- Wash inside out in cold water
- Place into the dryer immediately and do not hang to dry
- Do not use bleach
- Do not iron the shirt's image surface again
- It is always best to wash garments before wearing
